

HEREDITARY BREAST AND OVARIAN CANCER (HBOC) PANEL TESTING

Patient name	Patient DOB (MM/DD/YYYY)
--------------	--------------------------

In order to send a claim to Medicare, Invitae requires that:

- This patient is currently enrolled in Medicare, is affected with breast, epithelial ovarian/fallopian tube/primary peritoneal, pancreatic or prostate cancer and **has not** had previous genetic testing covered by Medicare.
- This patient has received appropriate pre-test genetic counseling, and post-test genetic counseling is planned.

If you have not checked both of the boxes above, please stop and contact Client Services at clientservices@invitae.com or 800-436-3037. In addition to the criteria above, the patient must meet at least one of the following (items 1–4), and testing must include BRCA1 and BRCA2. Select all that apply.

- 1 Personal history of breast cancer **and** one or more of the following (items a–d):
 - a Diagnosed at or before age 45
 - b Diagnosed **at or before age 50** with at least one of the following (items i–v):
 - i An additional breast cancer primary
 - ii One or more close blood relative(s)* with breast cancer at any age
 - iii One or more close blood relative(s)* with pancreatic cancer at any age
 - iv One or more close blood relative(s)* with prostate cancer (Gleason score ≥ 7) at any age
 - v An unknown or limited family history, defined as fewer than two first- or second-degree female relatives surviving beyond 45 years of age in either lineage
 - c Diagnosed at or before age 60 with triple negative breast cancer
 - d Diagnosed at any age with at least one of the following (items i–vi):
 - i One or more close blood relative(s)* with breast cancer diagnosed at or before age 50
 - ii Two or more close blood relative(s)* with breast cancer at any age
 - iii One or more close blood relative(s)* with invasive ovarian cancer (includes fallopian tube and primary peritoneal cancer)
 - iv Two or more close blood relative(s)* with pancreatic cancer or prostate cancer (Gleason score ≥ 7) at any age
 - v Close male blood relative* with breast cancer
 - vi Ethnicity associated with higher mutation frequency (e.g. Ashkenazi Jewish)
- 2 Personal history of other cancers (items a–e):
 - a Personal history of invasive ovarian cancer (includes fallopian tube and primary peritoneal cancers. BRCA-related ovarian cancers are associated with epithelial non-mucinous histology)
 - b Personal history of male breast cancer
 - c Personal history of prostate cancer Gleason score ≥ 7 at any age, with ≥ 1 close blood relative* with breast cancer (≤ 50 y), and/or invasive ovarian, pancreatic, or prostate cancer (Gleason score ≥ 7) at any age
 - d Personal history of pancreatic cancer at any age with ≥ 1 close blood relative with breast cancer (≤ 50 y) and/or invasive ovarian and/or pancreatic cancer at any age
 - e Personal history of pancreatic cancer and Ashkenazi Jewish ancestry
- 3 Close blood relative* with a known BRCA1 or BRCA2 gene mutation
- 4 Medicare has not yet established criteria for testing my patient with breast, epithelial ovarian/fallopian tube/primary peritoneal, pancreatic or prostate cancer, but I have determined this testing is medically necessary. When submitting this form, I will provide supporting documentation for why this test is medically necessary (e.g., ICD-10 codes, letter of medical necessity, medical records).

*Close blood relative refers to first-, second-, and third-degree relatives on the same side of the family (first-degree: parents, siblings, and children; second-degree: grandparents, aunts, uncles, nieces, nephews, grandchildren, and half-siblings; third-degree: great-grandparents, great-aunts, great-uncles, great-grandchildren, and first cousins).

FOR THIS MEDICARE ORDER, PLEASE SUBMIT:

1. This completed form
2. A letter of medical necessity (LMN)
3. Pedigree (or fill in the family history section on the Invitae requisition form)

Letter of Medical Necessity

Dear Medical Director,

I am writing this letter on behalf of my patient and your subscriber to request full coverage for genetic testing performed by Invitae Corporation, a CAP-accredited and CLIA-certified clinical diagnostic laboratory located at 1400 16th Street, San Francisco, CA 94103.

IN ADDITION TO THE INFORMATION ON SUBMITTED ORDER FORMS, MY PATIENT HAS THE FOLLOWING SYMPTOMS, CLINICAL FINDINGS, AND/OR FAMILY HISTORY:

Knowledge of the patient's genetic information is important for me to more accurately assess my patient's condition and will guide my recommendations for care. Results from Invitae's genetic test will have a direct impact on my patient's treatment and management.

I am specifying the Invitae genetic test because it is a highly sensitive, cost effective, and clinically relevant.

Thank you for your review and consideration. I hope you will support this request for genetic testing coverage for my patient. If you have questions, or if I can be of further assistance, please do not hesitate to contact me.

Sincerely,

PHYSICIAN NAME:

PHONE:

I, _____, request and permit Invitae to analyze the gene(s) indicated on the test requisition form in: My sample My child's sample

I UNDERSTAND THAT:

1. More information about _____ (condition tested) is available from my healthcare provider and can also be found on the Invitae website (www.invitae.com).
2. The results of this DNA test could be:
 - a. Positive, and may:
 - i. contribute to the diagnosis of a genetic condition.
 - ii. reveal carrier status for a genetic condition.
 - iii. reveal a predisposition or an increased risk for developing a genetic disease in the future.
 - iv. have implications for other family members.
 - b. Negative, and may:
 - i. reduce but not eliminate the possibility that my condition has a genetic basis.
 - ii. reduce but not eliminate my predisposition or risk for developing a genetic disease in the future.
 - iii. be uninformative.
 - iv. not remove the need for additional testing.
 - c. Of uncertain significance and may:
 - i. lead to a suggestion that testing additional family members may be helpful.
 - ii. remain uncertain for the foreseeable future.
 - iii. be resolved over time. My healthcare provider will be notified of any changes to the classification of previously-reported variants that relate to my (my child's) result.
3. Molecular genetic tests may not be diagnostic for the selected condition(s) in all individuals. This test may or may not provide actionable information or have an implication on my medical management.
4. Some types of DNA changes that could cause a specific genetic disorder may not be detected by this test. As with most molecular genetic tests, Invitae's test has technical limitations that may prevent detection of specific rare variants due to poor DNA quality, inherent DNA sequence properties, or other types of limitations.
5. There may be possible sources of error including, but not limited to, trace contamination, rare technical errors in the laboratory, rare DNA variants that compromise data analysis, inconsistent scientific classification systems, and inaccurate reporting of family relationships or clinical diagnosis information.
6. Invitae will only interpret the parts of the DNA sequence of gene(s) indicated on the requisition form by my or my child's physician. However, the technology obtains the DNA sequence information related to a broad range of genetic conditions and interpretation and release of other parts of the remaining genetic data can be requested through my healthcare provider (additional charges may apply).
7. Invitae's clinical reports are released only to the certified healthcare professional(s) listed on the test requisition form. Clinical reports are confidential and will only be released to other medical professionals with my explicit written consent. It has been explained to me that my clinical report is available for me to view or download at the Invitae website (www.invitae.com) after it has been released by my healthcare professional(s). Alternatively, my clinical report can be made immediately available upon completion of the test with the prior approval of my healthcare professional, as indicated on the test requisition form.
8. It is my responsibility to consider the possible impact of my or my child's test results as they relate to insurance rates, obtaining disability or life insurance and employment. The Genetic Information Nondiscrimination Act (GINA), a federal law, provides some protections against genetic discrimination. For information on GINA visit <http://www.genome.gov/10002328>.
9. Results from the Invitae test are analyzed with the assumption that correct information on family relationships has been provided. Due to the type of test performed there is the possibility that inconsistencies in information on family relationships could be identified if multiple family members are tested. For example, this test may detect misattributed paternity, where the stated father of an individual is found to not be the true biological father. It may be necessary to report these findings to an individual who requested testing.

10. I will be offered genetic counseling with a geneticist, genetic counselor or other qualified healthcare provider who can answer questions, provide information and advise about alternatives before and after having this test. Further testing or additional physician consults may be warranted.
11. My (my child's) data and personal information will be stored and protected in strict confidence complying with regulatory requirements (e.g. HIPAA and equivalent protections), and acknowledge that I have read and understand [Invitae's Privacy Policy](#) and [Notice of Privacy Practices](#). My (my child's) individually identifiable health information (i.e., "Protected Health Information" under HIPAA) will NOT be used in FOR PROFIT research without my additional, explicit consent.
12. Because the understanding of genetic information will improve over time, Invitae may notify me of clinical updates related to my (my child's) genetic profile (in consultation with my primary clinician as indicated). I may request additional notifications and resources relevant to my genetic profile by creating an account at www.invitae.com/patients.
13. I have the right to receive a copy of this consent form.
14. New York residents only: My (or my child's) sample can be retained for greater than 60 days after completion of the test in the event that additional genetic analysis is necessary. _____  INITIAL HERE

BY SIGNING BELOW, I ATTEST TO THE FOLLOWING:

1. I have been informed of the likelihood of finding a change in the gene(s) for which I, or my child, am being tested and have received test-specific clinical information.
2. I have read and understand the information provided on this form and have had an opportunity to have any questions answered by my healthcare provider.

HEALTHCARE PROVIDER STATEMENT

By signing below, I attest that I am the referring physician or authorized healthcare professional. I have explained the purpose of test described above. The patient has had the opportunity to ask questions regarding this test and/or seek genetic counseling. The patient has voluntarily decided to have this test performed by Invitae.
