

This requisition form can be used to submit a specimen for the SMA Identified Program, a no-charge US testing program brought to you by Biogen and Invitae. All US patients* with a suspected or clinical diagnosis of spinal muscular atrophy (SMA) can take part in the SMA Identified Program. To submit orders for genetic testing outside of this program, please order through Invitae's online portal or use a standard requisition form, accessible at www.invitae.com/order-forms.

The SMA Identified Program facilitates access to genetic testing to help accelerate or confirm the diagnosis of SMA. While Biogen provides financial support for this program, tests and services are performed by an independent third party, Invitae. Healthcare providers must confirm that patients meet certain criteria to use the program. Biogen receives de-identified patient data from this program, but at no time does Biogen receive patient identifiable information. Biogen receives contact information for healthcare providers who use this program. Genetic testing is available in the U.S. and Puerto Rico only. Healthcare providers who use this program have no obligation to recommend, purchase, order, prescribe, promote, administer, use or support any Biogen product.

*It is a requirement for a qualified, US-based (inclusive of US and Puerto Rico) healthcare provider to submit the request.
