

## SPONSORED, NO-CHARGE GENETIC TESTING AND COUNSELING FOR INDIVIDUALS DIAGNOSED WITH PANCREATIC CANCER

The Detect Hereditary Pancreatic Cancer genetic testing program provides no-charge genetic testing and counseling for individuals diagnosed with pancreatic cancer.

More than 56,000 adult Americans are diagnosed with pancreatic cancer annually and it is the fourth leading cause of cancer death among US adults.

Pancreatic cancer accounts for approximately 3% of all cancers. The Detect Hereditary Pancreatic Cancer program is designed to identify patients with pancreatic cancer who may be eligible for precision therapies and surgical treatment options based on germline genetic test results.

### PROGRAM ELIGIBILITY

Invitae Detect Hereditary Pancreatic Cancer is open to all individuals within the US and Canada with one of the following diagnoses:

- Pancreatic adenocarcinoma at any age
- Pancreatic neuroendocrine tumor at any age

### GENETIC TESTING WITH INVITAE

All orders submitted through the Detect Hereditary Pancreatic Program will include analysis of the following panels:

#### Invitae BRCA1 and BRCA2 STAT Panel

Accelerated turnaround time (TAT) may be necessary because physicians and patients often want to make surgical and management decisions as quickly as possible.

#### Invitae Multi-Cancer Panel

The Invitae Multi-Cancer Panel is a comprehensive cancer panel that tests genes associated with hereditary cancer syndromes, including known pancreatic cancer genes.

## GENETIC COUNSELING WITH INVITAE

Individuals tested through the Detect Hereditary Pancreatic Cancer program will be eligible for no-charge, post-test genetic counseling to help them understand their test results. Invitae's genetic counseling services include:

- Review of the patient's medical history and family history.
- Review of the patient's genetic test results and the implications of those results for the patient and their family.
- A detailed consult note and pedigree made available to the patient and clinician after the genetic counseling session is complete.
